Sept Performance

NEW FOLLOWERS 3 +1% from Aug	TOTAL REACH 1,245 views 137 accounts	CONTENT SHARED 2
TOTAL INTERACTIONS 31 39% followers 61% non-followers	PROFILE VISITS 46 Accounts -17% from Aug	EXTERNAL LINK TAPS 3x

September reflected the same pattern seen in previous low-posting months, with only 2 pieces of content published, reach dropped to 1,245 views and profile visits fell another 17% to 46 accounts. The numbers pulled back after August's recovery, where more content shared brought reach back up, confirming once again that posting volume is the single biggest driver of this account's performance. But with 61% still coming from non-followers, meaning the content quality is holding and new audiences are still engaging when they find it.

Instagram Grid

There will be one post per-month, starting from bottom right.

Posting Month	Caption Villa Palmara
Sept	Just sunshine, a private pool and nowhere you need to be. Villa Palmara is available for short and long stays. Book your Bali stay through the link in bio. #balilife #balilivin #balivilla #besthotels #luxuryresorts
